WHY will be recreational ball club of Marion in 1925?

With the starting rapidly drawing near, still no answer to Butler's challenge is forthcoming from the Anthony Cleaners, present champions of the city.

More than a week ago, A. H. Clemons, manager of Butler's recreational ball team, challenged the Cleaners to a game or series of games to be played 1925 or soon thereafter in the city. The challenge has passed following Butler's ejection over Calvary, champions of the Little World Series, began and concluded one of the two teams in the city.

No answer has yet been received.

The Cleaners also followed similar action in July. H. Clark, who founded the club, said he could get up a team and name Anthony Cleaners despite their relationship claim.

Paul Fetherlight, manager of Anthony, immediately answered Clark's challenge but has been slow in coming forth with a reply to Butler. In fact, he says that many Marion recreational ball fans are beginning to wonder just what the delay is.

In answering Clark's challenge, Fetherlight requested that he organize his little team and play someone to prove his right to meet the Cleaners. It is estimated at the time that Clark plays Butler and the winner meets Anthony for the championship.

But it takes two to make a bargain in this case and Butler felt at that time and still feel as the Cleaners do in regard to playing Clark's team. They contend that by winning every game played this year and defeating, among others, Calvary, whose strength is well-known and cannot be ignored, they had earned the right to compete for the title. They have won 20 games and suffered no defeats? Why should they play Clark's outfit?

Butlers have indeed earned the right to meet Anthony Cleaners for the championship. They plan to ask for a game or three-game series with the winners of the Little World Series, and if they win, that will lay claim to the city championship.

If the Cleaners do not answer the challenge before the Little World Series does, and Butler should defeat the winners of the Little World Series, Butlers have every right to consider themselves champs without playing Anthony. The Marion recreational ball season is generally considered closed when the Little World Series is completed and Anthony have had more than a week to think it over, Clark's challenge was answered the day after it appeared in these columns.

When the season's record of the two teams is considered we find that Anthony have five wins and lost two of them during the entire summer. One defeat, however, came at the hands of

Stages Rally In Sixth To Beat Second Church Loop Champs In Crucial Battle

Doubtful Decision by Umpire in Sixth Throws Trinity Up in Air; Baptists Get Six Hits Off Gruber and Show Championship Form for Five Innings

BY EDDIE SCHÖNLER
Sports Editor, The Star

TRINITY Baptists, reigning champs of the second Sunday school league last night saw their hopes for a city championship go plummeting when Calvary staged a hit and run rally in the sixth inning of the sixth Little World Series game and won, 3 to 2.

Calvary won but it would be rather difficult today to find a majority of fans Calvary rooters included, who honestly believe that the first Sunday School League champs earned the victory.

And now we know what a score there was when Shadley was ejected out in protest as their old boy went down before what they claimed a foul ball in that last great battle in Yankee Stadium between Jack Dempsey and Sharkey.

Sixth Inning

The blow-up came in the sixth inning when Bob Stief, impaling at third base, made a foolish decision which resulted in a cry of protest heard by scores of shouting citizens residing on N. Main, two blocks from Lincoln Park.

WHO HAS THIS GUY TUNNEY LICKED, ANYWAY?

Champion Gene Tunney has done well in his ring work. Here we see him contentedly surrouned by four of his victims: Jack Dempsey, Harry Greb, Charlie Weiland and Ermino Spalla.

**WHO IS THE GUY TUNNEY
LICKED?**

The short and simple question again. If you ask the Dempsey fans, they will say it is Eddie Greb. If you ask the Greb fans, they will say it is the world's best boxer. If you ask the Weiland fans, they will say it is the "ugly" of them all.

Tunney has had his share of trouble. First off he lost to the Kaiser off the Padding J. R. of Berlin but stayed with it in his second bout against the world.

After taking a 15-15 decision from the referee, Tunney was strangled in the 10th round. Last year, 1929, one of them was Bob Murphy, one time heavyweight.

In the next three days Greb went up and down the first band which was part of the fighters he had helped to build. The last bout Tunney left with a loss in the

greatest fight of the year.

WHIP WHIPPEY!

The Ed. Weiland fans insist that the whip of Gene Tunney has not yet met its match in the ring. Weiland is the "ugly" of the bunch and never gives up.

Would Solve Farm Problem With 'Revolving Fund' Plan

By CHARLES P. STEWART
WASHINGTON, Aug. 21.—Informed
as Secretary of Agriculture, Jardine
holds the original copyright on the
expression "revolving fund," so frequently
used in connection with his plan.

Intra-fleet plan, it
was for the agri-
cultural department
that I handed, now
out what the inter-
ference — make
no mistake — had
been anything but a mere domestic
item measure.
I suppose both
can all know.

And yet, I am not
so sure. Secretary
Jardine, I believe, is
away on a tour.
But the department
was quite awhile pushing me
up an expert who could set beyond the
explanation—the whole outfit were put
enough with that—why, a revolving
fund that rotates.

Just so. But why? And who makes
it revolve? And how fast? And what
for? Moreover, what is a revolving
fund, anyway?

THIS is the expert told me about the
Haugen farm relief plan.
Formerly it was the McGraw-Haugen
plan—called so after Senator Charles
E. McGraw of Oregon, and Representative
Gilbert N. Haugen of Iowa. Mr.
Nestor, however, turned rather sour on
it when they began talking about run-
ning him for vice-president on a ticket
which considers it a bad thing, so it is
better taste to speak of it only as the
Haugen plan now.

The Haugen plan's purpose is to take
up the prices of farm products to an
index level with everything else.

THE idea is this:
When the farmer has an over-

HOW COURTHOUSE WOULD LOOK

COURTHOUSE object on two principal grounds:

1. The American container will be

2. Agricultural will be guaranteed a

bank if whether or not an especially

rush into it and there it is a sign of

inflation which can't be put in an

explosion in spite of all that even the

federal government can do.

JARDINE puts it like this:

When the farmer has a fat crop
year and prices threaten to slump, he
ought to be able to buy, with part of
his products, for the next lean year.
Grazing power up right then and
leaving him a warehouseful of stuff to
sell later on, when maybe the crop
is higher still.

But he can't wait. He's too poor.

The farm loan bureau will lend him

money up to 85 per cent of his crops
but that isn't enough. He needs more.

All right, let's agree appropriate
another \$2,000,000 with a commis-

sion on charge of it to make the farmer
additional loans on a kind of second
mortgage loan so to speak.

That's the revolving fund.

WHAT revolving?

Why, here the government has
the money, then the farmers have it,
then the government gets it back again,
and so on.

That's a revolution, you know.

Some of the heads may not get clear
round, as on occasional farmer fails
to keep it moving along, but this isn't
perpetual motion, and doesn't pretend to

Plans for the improvement of the Marion County courthouse call for the addition of 3,000 square feet to the building which will be used largely for much-needed office space.

With the addition of a fourth floor to the present building, ample office room will be provided for all county offices including those of the board of elections, county superintendent of schools, and prosecuting attorney which now are located elsewhere in the city.

The construction of the fourth floor will not change the symmetrical appearance of the building, according to plans presented by T. Lewis, architect in charge of improvements. Plans reveal that the proposed floor will be constructed in the 27 feet between the third floor and the roof. The ceiling of the third floor also will be lowered a few feet to make room for the added floor.

Windows Planned
Windows will be constructed above the third floor door to make side entrance light for the fourth floor. One side of this construction, no other changes will be made on the exterior of the building or making room for the door.

Probably the most marked change on the exterior of the building will be removal of the steps at the south and west entrances. At the south a ground entrance will be constructed to the first floor and the west a double flight of steps leading to the second floor are being planned. There will also be an entrance to the first floor at the west side of the structure.

To install a staircase in the south corner of the auditor's office to lead down to the first floor is the plan.

To expand the space needed for that office. The present office of the county surveyor will be utilized by the auditor. The new location of the county nurse will in all probability be in the office to be built at the north end of the first floor or on the fourth floor.

New Roof

A new roof is to be installed to cover the entire building.

All of the proposed improvements on the interior will be fire proof. Every room in the building will be redecorated with the exception of the court room which is being remodeled at the present time.

According to Elmer, the improvements will be the first to be made on the east house should the project be passed by the voters, for the first time in 10 years.

Stephenson Bestowed All That Money Could Procure On Friends of Both Sexes

BY DONALD WHIT

WHAT A LIFE he has had! C. Stephenson, a man of power in any place, a friend to the hearts of many women, has been and is still the center of "follies." His fortune is great, his friends are numerous, and men who are in the public eye do a wise thing in not being too familiar with him. He is a good example to us all.

Stephen's life has been a series of successes, but it has not been without its greatest failures, and all this goes to show that he is a man of great ability.

He never refused a favor to any one, nor did he ever fail to do what he could for any one. He was at least 17 young women were recipients of diamond rings from Stephen. Women were fascinated by him, he related, and they knew they had made great sacrifices for his sake.

Although Stephenson always was a favorite with women, both his marital ventures were unsuccessful, both while Merringillo.

His first wife, whom he married in Oklahoma, divorced him after she charged he had deserted her and her

O. L. HIPSHER IS INJURED IN FALL

Caledonia Man's Spine Is Fractured in Accident at Farm

Caledonia Aug. 31—O. L. Hipsher, confined to a farm near Caledonia, was injured in a fall from a horse which he was riding. He was taken to Marion Hospital where he was seen and followed up an operation. Dr. Mr. Thompson, of Caledonia, treated him.

Mr. Hipsher was injured when he fell from a horse which he was riding from the lot of the farm at the Noblett farm. He fell from the horse to make an adjustment to the hill on the threshing machine and had to get up while walking on a team.

DONAHEY PARDONS TWO OHIO CONVICTS

Mike Jugan and James Thomas Gain Release from Prison

Columbus Aug. 31—Gov. W. D. Donahey, it was announced today, pardoned Mike Jugan, Lorain County, and James Thomas from the Stark County Workhouse. Jugan, Jugan pleaded guilty to a charge of manufacturing liquor. Thomas was convicted of illegal distribution of intoxicants.

Federal judges and prosecutors joined B. J. McDonald, state prohibition commissioner in recommending executive clemency for the two prisoners.

Jugan was imprisoned Oct. 10, last, to work out a fine of \$600 and confinement in the big state prison for 10, 14 or 16 to serve from one to five years.

Thomas was imprisoned Oct. 10, last, to work out a fine of \$600 and confinement in the big state prison for 10, 14 or 16 to serve from one to five years.

Both Jugan and Thomas were released from prison.

On the desk of his elaborate office in Indianapolis stand a small statue of Napoleon, whose life his friends have influenced him greatly perhaps to follow. He earned nothing for money although he had accumulated a large sum. Only power, mother—the power to make and break men to suit his ends.

Chances Pending, his Minnie attorney says, "Alonzo will, Stern" was loyal

to those who were his friends. That's why he is in Marion City to day. He refused to take the stand in his own behalf because he didn't want to ruin the reputation and lives of others.

If Stephenson liked you, anything he possessed was yours. If he feared you were fond of shooting, he would present you with the finest gun money could buy. If you fancied bad dogs, a bad dog would soon find its way to your home. His enemies say he gave gifts to those he thought he could use. Those who loved him, however, say his only motive was the desire to make his friends happy.

Suggested Epitaph

It has been said a fitting epitaph for Ruth would be: "He was the best loved and best hated man in the state."

One of his links with Stephen on his worst fault was a craving for liquor. Duke Pee, he explains, "one drink brought out the worst there was in Stern" and his entire character would change.

For two years his lawyers declare Stephenson had been a model prisoner at Michigan City, discharging a report that he once attempted to escape. Two years ago his report has failed to destroy his optimism, and he always implies that some day he will walk out of the state penitentiary, a free man.

A life, committed for the death of a girl, Stephenson nevertheless, he loves hell return to Indiana's political battlefield to contest once more for leadership.

(To Be Continued)

To Consider Ways and Means of Preparing Pennsylvania Ballots

Kansas City, Mo. Aug. 31—Sen. James A. Reed, Democrat, chairman of the Senate investigating committee, to day announced the committee would meet Sept. 7 at 11 o'clock in the morning at the Congress Hotel, Chicago.

Senator Reed said the committee meeting was called to consider ways and means of obtaining ballots cast in the last Pennsylvania elections.

Senator Watson, Republican of Indiana, chairman of the privileges and elections committee, was requested to be present.

Senators-elect William S. Vare and William Wilson, defeated Democratic candidates, were also to be summoned to appear. Senator Reed said, he represented at the committee meeting.

Marion Youth Working 18 Months Turns Out Model Steam Railway Locomotive

Paul A. Croman, 18, Son of Mr. and Mrs. Clyde C. Croman, 346 E. Market, Copies Miniature from Eric Engines

A miniature six wheel drive engine measuring four and a half feet in length took the product of 18 months labor in the boy's workshop. An engine was copied and followed up an exact model of the Eric Engines.

The engine is built from the parts of the Eric Engines.

Eric Engines are made of aluminum and copper pistons which operate when the locomotive is moved.

TERMED "MOST VALUABLE GROUP OF CHILDREN"

This group of children above is declared to be the most valuable ever assembled, as far as actual dollars and cents are concerned. Their annual earning capacity totals in excess of half a million dollars. They are famous screen youngsters of Hollywood, and this picture shows them at a party given by Mickey Daniels and Peggy Eaton upon their return from an eastern trip. Mickey is shown dishing out ice cream cones for the guests.

TURNER DEPLORES SITUATION IN OHIO

Attorney General Asserts Special Interests Control Government

Cincinnati, Aug. 31—In appeal to
the citizens of Ohio to restore the
balance of government and to

Anti-Saloon League of the public

COURT CONSIDERING MOTION FOR HEWITT

Convicted Connecticut Youth May Be Given New Trial; Stay Granted

Jefferson, Aug. 31—The court of ap
peals sitting here this week announced
today that it had taken under advisement
an appeal for a new trial filed by
attorney for Floyd Hewitt, 16
year old Connecticut boy convicted of
first degree murder and sentenced to
death in the electric chair.

Hewitt was found guilty of murder
ing Mrs. Celia Brown and her five year
old son, Fred Brown Jr., at the Brown
home in North Conneaut, Ohio, Aug. 24. He
admitted the crime, pleading that he
became "crushed" by radio jazz music
during a visit to the home. He killed
Mrs. Brown with a store poker and then
beat the child to death with a
club in order to cover up the first
murder, according to the confesses.

Defense attorney filed a 30-page
brief with the appellate court, giving
reason why a new trial should be
granted. A decision in the case is not
expected before next week. Hewitt,
in the state penitentiary at Columbus,
was granted an indefinite stay of execu
tion pending the outcome of the ap
peal.

Channel buoys

WHAT would modern navigation do without the channel buoys — those floating markers that keep ships off the shoals? In a very real sense, the advertisements in this paper are channel buoys, placed for your protection—for the safeguarding of the family expenditures.

These advertisements are the signed statements of reputable firms who seek your patronage on the single basis of giving value for every dollar spent. They are honest statements, the only kind an advertiser can use and remain an advertiser.

People who get the most for their dollar in the market-places are those who keep an eye on the channel buoys. Day by day, they follow the advertisements to learn what and where to buy to the best advantage. Make this a habit. Study the advertisements, in the interest of shrewder buying.

The advertisers in this paper have charted the channels of buying for you. Keep to the course.
